PROFILE SUMMARY

Associate IT Consultant with **1+ years** of experience in **Microsoft Intune** and **SCCM** for endpoint management, software deployment, patching, device compliance, and troubleshooting. Alongside IT infrastructure work, I have developed strong full-stack skills through hands-on projects using **Python, Django, Django REST Framework, ReactJS, and MySQL**. Actively seeking opportunities to transition into **Python/Django or Full-Stack Development** roles.

SKILLS

- **Infrastructure / Endpoint Management:** Intune, SCCM, Patch Management, Device Compliance, Software Deployment, Logs & Troubleshooting
- **Backend Development:** Python, Django, Django REST Framework, SQL, Django ORM, REST API Development
- **Frontend Development:** ReactJS, JavaScript, HTML, CSS
- **Tools:** Git, GitHub, Postman, VS Code, JIRA, Agile/Scrum
- **Cloud (Basic Understanding):** Azure Fundamentals, Azure AD, App Services

WORK EXPERIENCE

ITC Infotech

Associate IT Consultant

2024 – Present

Bangalore, India

Primary Role — Intune / SCCM

- Improved **Intune policy** success rate by **25%** through optimized compliance & configuration profile deployments.
- Reduced **SCCM software deployment** failures by **30%** using log-based **troubleshooting** and remediation.
- Increased **ticket resolution speed** by **40%** by resolving device, application, and compliance issues efficiently.
- Improved **patch deployment coverage** by **20%** by optimizing device collections and deployment schedules.

Secondary Role — Development Contributions

- Assisted internal development teams with **debugging**, log analysis, and minor backend automation tasks.
- Strengthened development skills by actively working on **Django, Django REST Framework**, and **ReactJS** projects.
- Expanded full-stack capabilities through active development of **Django + React projects**.

PERSONAL PROJECTS

Learning Management System (LMS) | Python (Django), DRF, ReactJS

- Developed a **Learning Management System (LMS)** with role-based access for **Admin, Instructor, and Student** roles.
- Built RESTful **APIs using Django REST Framework** for course management, enrollment, and content delivery.
- Implemented **JWT-based authentication and authorization** to ensure secure user access and session handling.
- Used **Django ORM** to manage relational data models for users, courses, lessons, and enrollments.

Restaurant Management System (RMS) | Python (Django), DRF, ReactJS, MySQL

- Built full dining, order, menu, and inventory management system. consultation modules.
- Developed real-time order handling **APIs using Django REST Framework**.
- Created dashboard and table layout **UI using ReactJS**.
- Implemented **JWT authentication** for separate Admin and Staff roles, ensuring secure access to critical data.

EDUCATION

JSPM's Jayawantrao Sawant College of Engineering
